

Quicker Inventories... More Selling Time

Sales and F&I Solutions for ERA®

U.S.

Refine your physical inventory process and free up your staff to create more profit.

Automated Inventories

Stop spending hundreds of hours keeping your inventory up-to-date and start making more money! Reynolds' Vehicle Bar Code is an automated vehicle reconciliation tool that is the perfect partner for maintaining your inventories. Start eliminating data entry errors today and ensure that you can account for every vehicle on your lot.

- Get your vehicles ready for sale immediately – stock them by scanning the manufacturer's bar code and easily assign a stock and model number.
- Perform faster, more frequent physical inventories, reducing the risk of theft.
- Quickly update lot locations.
- Report damage on vehicles during inspections, such as flat tires and dents. It even checks for missing key tags.

Improved Selling Time

Spend more time with your customers and increase opportunities for sales. Vehicle BarCode will help:

- Give your sales team accurate inventory and lot location.
- Ensure there are no more missing key tags.
- Keep customers on your Web site and generate more leads and sales with a complete online inventory.

The bar code printer and durable, handheld scanner are compact and easy-to-use tools that simplify the inventory process.

"It took us about four hours to get all the cars entered in our inventory files, using an error-prone, manual, time-consuming process. Now we electronically get our vehicles into inventory 80% faster. I couldn't imagine our dealership not using this for our daily operations!"

Vehicle Bar Code for ERA®

Reliable Reports

Most people don't like analyzing data and making reports. With Vehicle Bar Code, you don't have to! The application takes all the information that's been scanned and loaded to ERA and turns it into comprehensive reports for you – reports like Vehicles In Inventory but Not Scanned, Vehicles Scanned but Not In Inventory, and Vehicles Scanned with Conditions.

- Account for every vehicle on your lot quickly and accurately.
- Eliminate the need to manually compare inventory reports and vehicle lists.
- Produce easy-to-read inventory exception reports.

Complete Control

The Vehicle Bar Code solution includes all the tools you need (handheld scanner, docking station, and label printer) to start improving your inventory reconciliation process today. It's embedded in ERA Vehicle Inventory Management, updating information automatically. This helps you keep better track of vehicles, which can make audits easier.

Get complete control of what you have in inventory at any given moment with the easy-to-use Vehicle Bar Code solution for ERA!
