

Balancing the Books

POWER

Business Office Solutions for POWER

U.S.

Maintain internal control, efficiently manage financial activities, and improve posting accuracy by using daily accounting information, reports, and auditing capabilities through POWER's Management Accounting solution.

Customized Accounting

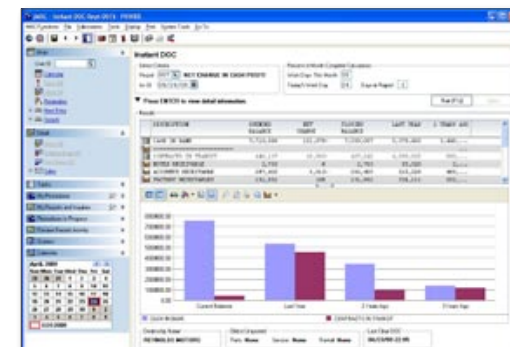

Create the optimal accounting process for your dealership. With Management Accounting, you can:

- Define the amount of time that accounting data is retained after month-end closing.
- Customize the flexible control settings so the software reflects your processes.
- Export data to Microsoft® Excel spreadsheets and easily analyze accounting trends with graphs.

Facts and Figures that Work

Have the best information at your fingertips! Management Accounting:

- Instantly updates records with each transaction so data stays as current as the last document posted.
- Automatically tracks accounting activity with full timestamps and produces audit trails that include date, time, and employee initials.
- Drills down from on-screen reports to journal, schedule, or G/L details for fast research and discrepancy resolution. Plus, if you have POWER's On-Line Document Retrieval or Image-Based Document Retrieval solutions, you can drill down to the specific document when necessary.

Optional Instant DOC Screen

Management Accounting for POWER

Productive People

Make the most of your employees, even across multiple stores. With Management Accounting:

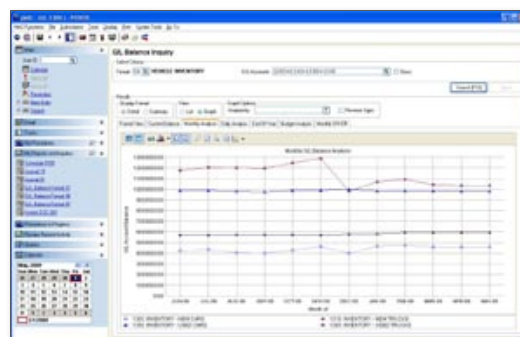

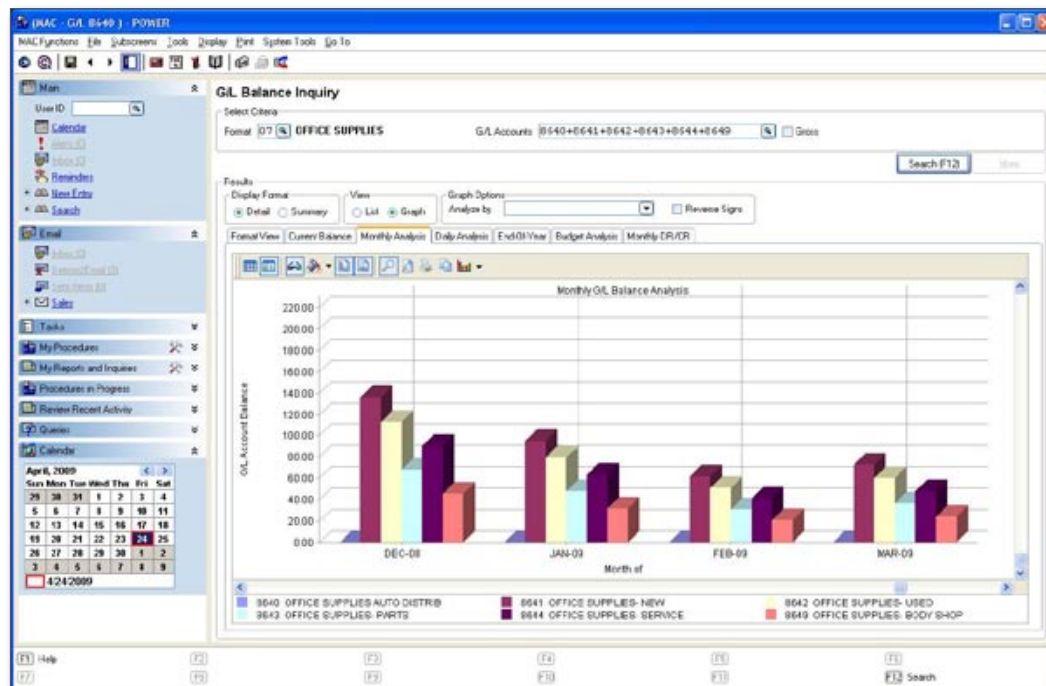

- Employees perform tasks more quickly and accurately.
- New employees easily learn software through an intuitive, user-friendly interface.
- You can handle increased volume with fewer accounting staff.
- Multi-dealership groups improve accuracy and timeliness while retaining appropriate security through inter-company postings.

Like Clockwork

Save time and prevent errors with a more efficient process:

- Verification and cleansing features promote accurate and efficient document posting.
- Integration with vehicle, customer, finance, prospecting, and reporting applications eliminates manual entry of certain data, which saves keypunch time and reduces errors.
- Improved posting accuracy reduces employee time spent researching erroneous entries.

Organize your accounting data in a way that works for your business to maximize productivity and reduce errors!
